

# MORNING APPEAL.

SATURDAY.....MARCH 6, 1880

## THE DOUBLE EXODUS.

It is pleasant to know that the Pacific coast is about to lose two prime nuisances, the wild cat stock manipulators and the Chinese. The former have been nursed in the larder-houses of commerce for years and the removal of their rotten carcasses to New York will purify the atmosphere of trade. How long Gotham will tolerate them is a question for our Atlantic sea-board friends to settle. It is quite certain that this coast can spare them and all their belongings. It is meet and proper that the exodus of this tribe should be coupled with the going forth of the Chinese. New York is quite welcome to the leprosy and filth of the latter. Every ear load which goes over land is an invoice of disease and degradation, yet the New Yorkers who have been fully warned of these facts, welcome them with open arms. It seems strange that the sad experiences of San Francisco should fail to serve as a lesson for New York. The coming of the Chinese to this coast has brought hard times, divided industries, discontent among the laboring classes, Kearneyism and riot. Their reasons for gaining a foothold in New York are already apparent to any one who reads the dispatches. They are desirable tenants; when the rent day comes round their money is ready and many of them settle in advance. They pay high rates and never haggle over the matter. White people occupying the same class of tenement houses and fully as well able to pay, make it a point to beat the landlord if they can, dispute the rates and keep the collector most of one month collecting the last month's rent. It is not to be wondered at that New York landlords are anxious to have their white tenants make room for the more desirable Chinese. Coin takes everywhere, no matter from what colored palm it comes and people who pay promptly are bound to get the first chance. It is the policy of the Chinese to do this and keep doing it until they secure a foothold, which will cause the property they occupy to fall 20 per cent in value. But even then the promptness with which the Celestial settles his rent is the mantle which covers all his sins, of filth, disease and miserly accumulation. There are some redeeming traits of character in the Chinaman, but there are none in the guerrilla stock dealers.

**RETRIBUTION.**—The following result of late municipal elections in Maine proves that the Republican party have at last awakened to the fact that inertness in their ranks will not do. The outrageous attempt of the Fusionists, or literally, the Democrats, to seize the reins of government and carry things with a high hand, brought them to their senses, and the following statement is a good indication that the Pine Tree State will be all right in the future: "The recent municipal election in Portland resulted in the election of Wm. Senter, Republican, by 1234 majority in a total vote of 5370. Last year there was a Fusion majority of 40 in a total vote of 5844. The Republicans also carry Farmington, Skowhegan, Lewiston, Auburn, Gardiner, Bath and Saco. The Democrats elected the Mayor at Ellsworth, Dering, Cape Elizabeth, Brighton, Falmouth, Gorham, Kennebunk, Hart, Carmel, Fryeburg, Hiram and Rockland all give Republican majorities. Standish gives a Democratic majority.

**BEATING THE CLERGY.**—Nearly every day the telegraphic dispatches bring tidings of some clerical gentleman who has chosen the broad highway to destruction rather than the narrow path which leadeth unto light. All this happens in the East. The APPEAL calls attention to the fact that Nevada has been singularly free from ministerial scandals. This is no doubt owing to the fact that the Sunday APPEAL teaches them a proper conduct of life and braces their moral backbone to such an extent that Satan cannot throw them in a square wrestle. No clergyman need fear the wiles of the devil so long as he has the APPEAL in his house. An ounce of prevention is worth a pound of cure, and the APPEAL is only \$8 a year.

The *Reveille* has the following editorial note: "Mr. Bancroft, the historian, has been making some very interesting researches into the records on the subject of the question of the power of the Government to emit bills of credit. In examining the debates of the Constitutional Convention, and the latter evidences of the men who participated in the deliberations of that convention, Mr. Bancroft finds that the testimony is all one way—against the assumption that the Government has any right to issue paper money. This will form one of the most interesting chapters in the forthcoming volume of his history."

**SUGAR CANE.**—Mr. W. C. Gregg, writes to the *Silver State* advising the ranchers about the Sink of the Humboldt and on the Big Meadows, where the native cane is indigenous to the soil, to cultivate the species grown in the South. Mr. Gregg offers to give information on the subject to any person desiring to experiment with it, as he has had fourteen years experience.

A very fine quality of white marble is said to have been discovered in Beaver County, not far from the Horn silver mine, Utah.

## MISCELLANEOUS.

The Chinese colony in Chicago is increasing noticeably.

When a man falls down, his temper generally gets up before he does.

The well being bored by the railroad at Mammoth Tank, Arizona, is now to a depth of 1,010 feet and no water.

Augustus Phoest, who lives on Sandy river, Oregon, accidentally shot and killed himself while out hunting on Thursday.

George Moody of Kingston, Ky. shot and killed his brother John in a drunken spree on Thursday night. He made his escape.

The hills in the Butter creek region, Southern Oregon, are green with growing grass, and farmers are busy plowing for Spring crops.

Mr. Lang, the Eastern Oregon cattle king, has purchased at least 40,000 head of cattle in Umatilla County, which he will drive East in the early summer.

Governor Perkins has offered a reward of \$300 for the arrest and conviction of the person who attempted to assassinate James Skinner, in White Oak township, E. Dorado county December 11th.

Mrs. John J. Astor of New York has recently sent 100 homeless children to homes in the West at an expense of \$1,500. During the past seven years the same lady has furnished 677 children with good homes.

A Washington dispatch says: Belva Lockwood promises to produce evidence that her case against Senator Hill of Georgia is bona fide, and that Hill's son purchased Jessie Raymond's silence and absence.

A St. Petersburg dispatch states that the man who fired at General Mellickoff on the 31st instant, was to be tried on the 4th, and executed on the 5th. The would-be assassin said that Mellickoff would be killed by some of his comrades; that a second, and if necessary, a third attempt would be made.

G. Groseman and William Carson, of Van West, Ohio, have been convicted of the murder of Bernard Packer in December last, and will suffer the extreme penalty of the law. Packer was murdered at his door, and the murderers then placed his wife's feet against a hot stove until she told them where to find \$1,500.

The ladies of Paris are wearing entire costumes of fur, sealskin, Astrakhan and even ratskin. A ratskin dress is thus described: In a costume of American rat the skirt is made with a number of the skins arranged so that the back and stomach of the animal alternate, thus forming light stripes or bands. The rat bodice is trimmed with chinchilla, an incroyable cape in chinchilla over the rat jacket, a rat toqua with a hawk's head at the side.

**MR. SHARON.**—Mr. William Sharon has been a miserable failure as a United States Senator. He has been of no use to the nation, Nevada or himself. Since his incumbency he has neglected the interests of his party, and his own private duty. It was a mistake on his part that he did not tender his resignation three years ago. He could have done so with good grace; but for reasons best known to himself he persisted in retaining the title, until his constituents are thoroughly ashamed of him, and so completely disgusted with the manner in which he has represented them that they are sorry he was ever exalted to the high station. If Mr. Sharon has one iota of common sense he will not dare to again present himself for the suffrages of the Republicans. With all his own money, and the backing his moneyed friends can give him, it is impossible to believe that he can be re-elected. If it be true, as alleged, that money will re-elect him, the State of Nevada will fitly deserve the appellation of "rottenborough." If the people show that they have fallen so low, they are not deserving of anything better; and everything worth having in the State should be sold to the highest bidder.—*Silver Independent.*

**RATES TO BE RAISED.**—Since the expiration of the contract between the Pacific Railroad and the Pacific Mail Steamship Company, the rates of fare between San Francisco and New York, by rail or water, have been reduced nearly one half. This reduction was caused by competition between the Railroad and Steamship Companies, and while it reduced the profits of both, it was of immense benefit to the public, who on the days that steamers left San Francisco or New York, could purchase through tickets at low rates. According to a dispatch from New York, a new arrangement, to run for five years, has been made by the competing lines. By the terms of this agreement, the railroads are to pay the steamship line \$110,000 per month, in consideration of the privilege of fixing the rates for California passengers and freight. In addition to this the roads are to purchase two steamers on the China line for \$1,200,000. The roads can therefore fix their own rates for passengers and freight to and from California, with no fear of competition for at least five years.—*Silver State.*

**THE FLY PIXLEY.**—Bob Pixley, the expert, returned yesterday from a trip to Mexico. Of all the trips he ever made this beats them all. It was the roughest, and the skin peeled from his nose. "It was a lively camp," says Bob; "they killed nine men and hanged three while I was there."—*Stock Exchange.*

The sudden retirement of Mr. Pixley from a section which supported so active a vigilance committee speaks volumes for his forethought and caution.

**MINING SPECULATION** has received a black eye in New York from the sudden decline of the stock in the Little Pittsburgh mine. When it suddenly fell 75 per cent, the holders sent up a howl that could be heard as far as the southern part of New Jersey. The innocent souls expected the stock to go up forever.

Quite a number of the newspapers in Nevada complain about the irregularity of mail matter, and especially newspapers. There is scarcely a day but what we receive two or three copies at a time of one or more of our State exchanges. The carelessness is attributed to agents on the Central Pacific Railroad postal cars. Is there no relief to be had?—*Reveille.*

Felicia was gliding down the street the other day, with a Derby hat on, and her hands in the pockets of a long ulster, when a small boy ran up and said: "Say, miss, if yer had a cigar, now, you'd be all right, wouldn't you?"

There is a Spanish proverb which says: "When you choose a wife, shut your eyes and command yourself to God." But that won't always save you.

The Bitters invariably remedy yellowness of complexion and whites of the eyes, pains in the right side and under the right shoulder-blade, furrowed tongue, high colored urine, nausea, vertigo, dyspepsia, constipation, heaviness of the head, mental depression, and every other manifestation or accompaniment of a disordered condition of the liver. The stomach, bowels and kidneys also experience their regulating and tonic influence. For sale by all druggists and dealers generally.
